CAREER OBJECTIVE

Aspiring Engineer with a strong foundation in Computer Science and AI technologies. Skilled in Java, Python, and modern development frameworks, with a keen interest in building intelligent, scalable, and user-centric solutions. Passionate about innovation, continuous learning, and contributing to impactful projects in a collaborative environment.

EDUCATION

Bachelor of Engineering in Cyber Security J.J College of Engineering and Technology	2023 - Present CGPA: 9.1
---	------------------------------------

HSC Cambridge Matric Hr.Sec.School,Ambai.	2022 – 2023 90%
---	---------------------------

SSLC Cambridge MatricHr.Sec.School,Ambai.	2020 – 2021
---	--------------------

RELEVANTCOURSEWORK: Operating Systems, DBMS, Computer Networks, Cryptography

TECHNICAL SKILLS

- **Languages** :Java,Python(basic), SQL
- **Core Areas** :OOP'S,DBMS, OS, CN, SDLC (Agile)
- **Database & platforms:** Firebase, MySQL, GitHub, VS Code, IntelliJ IDEA
- **AI & Data:** TensorFlow,PyTorch, Keras, CNN
- **Frameworks & Tools:** Postman, Git, Docker, AWS (EC2, S3, VPN),GCP (VPN, VPC, MIG)
- **Cybersecurity:** Network Security, Authentication Systems, Secure Application Design
- **Soft Skills:** Leadership,Teamwork, Mentorship, Event & Team Management

INTERNSHIP

GradTwin Services (OPC) Private Limited (Java Full Stack Intern)

Jan 2026 – April 2026

- Working on real-world full stack development projects - Rectifying Focal
- Stock Obscure in a Cyber Theory
- Developing applications using frontend and backend technologies
- Gaining hands-on experience in software development lifecycle

Infosys Springboard (Internship 7.0 Batch)

July 2026 – Sep 2026

- Selected for the Infosys Springboard Internship 7.0 program through a competitive shortlisting process
- Pending commencement of Batch 2, scheduled to begin July 6, 2026, subject to successful document verification

PROJECTS

AI-Based Plant Disease Detection System

July 2025 –August 2025

- Built a CNN-based deep learning model for plant disease detection
- Implemented image classification for accurate disease prediction
- Developed a Streamlit application for real-time analysis and recommendations

International Conference Website Development

Jan 2026 – Present

- Developed a responsive conference website using HTML, CSS, and Firebase
- Implemented modules for registration, schedules, and committee management
- Enhanced UI with structured layouts and responsive design

Electric Vehicle Adoption & Public Sentiment Intelligence Data Platform

Feb 2026-Present

- Designed a scalable data engineering platform for EV analytics
- Developed PySpark ETL pipelines and incremental data ingestion workflows
- Implemented Medallion Architecture and Star Schema modeling
- Built analytics datasets and dashboards for data-driven insights

CERTIFICATIONS

- Java for Beginners (Infosys) **Dec 2025**
- Cloud for Engineering Leaders: An Introduction to Cloud **Jan 2026**
- Artificial Intelligence Primer Certification (Infosys) **Apr 2026**
- Claude 101 , Claude code 101 **Apr 2026**
- Databases and SQL for Data Science with Python (Coursera) **May 2026**
