Career Objective

Motivated ECE student with a strong interest in software development, programming, and problem-solving. Seeking opportunities to apply technical skills, learn modern technologies, and contribute to innovative projects.

Technical Skills

- Programming Languages: Java, Python.
- Tools: Visual Studio Code , GitHub.
- Concepts: Data Structures Object-Oriented Programming, Database Management Systems

Projects

Job Matching and Resume Analyzer

- Developed an AI-powered Job Matching and Resume Analyzer system using NLP techniques to analyze resumes and recommend suitable job opportunities.
- Implemented resume parsing, keyword extraction, and skill matching to compare candidate profiles with job descriptions.
- Built a matching algorithm to calculate compatibility scores and rank relevant job recommendations.

network configuration difference reviewer

- Developed an AI-powered Network Configuration Difference Reviewer using Python, Streamlit, Ollama, and Llama 3 to compare network configuration files and generate automated change analysis reports.
- Implemented configuration diffing, risk assessment, impact analysis, and PDF/Markdown report generation using diffliib and LLM-based recommendations to streamline network change reviews.

Achievements

- Winner of Coding Battle at a technical symposium, showcasing strong problem-solving and algorithmic skills.
- Solved 200+ problems on LeetCode., strengthening data structures and algorithms expertise.

Education

B.E Electronics and Communication Engineering, <i>JJ College of Engineering and Technology, Trichy</i> CGPA : 8.0 (till 2026). Expected Graduation : 2027	2027
HSLC (12th), <i>Govt Girls hr,Sec School, Namakkal</i> 81%	2022
SSLC (10th), <i>Municipal High School, Namakkal</i> 75%	2020

Certificates

- Claude Certifications
- Java Programming
