

PRASSANNA BALAJI M

B.E. Computer Science (Cyber Security) Anna University — J.J. College of Engineering and Technology (2023–2027)
prassannabalajim@gmail.com | +91-9789928006 | LinkedIn | GitHub

Summary

Computer Science undergraduate specializing in Cyber Security with hands-on experience in penetration testing, full-stack development, and security tooling. Quick learner with strong problem-solving skills and practical project experience across offensive security and AI-powered applications.

Skills

Programming Languages	Python, Java, JavaScript (React, Node.js)
Security Tools	Nmap, Burp Suite, Metasploit, Wireshark, Nessus, Gobuster
SIEM / Monitoring	Splunk
Compliance & GRC	IT Security & Compliance, DPDP, Network Security Frameworks
Operating Systems	Kali Linux, Ubuntu, Windows
Soft Skills	Attention to Detail, Technical Documentation, Self-Directed Learning

Experience

Ethical Hacking Trainee · Biglearn Institution	Nov 2025 – Dec 2025
- Performed vulnerability assessment and penetration testing using industry-standard tools. - Identified and documented security vulnerabilities with structured remediation recommendations.	

Projects

JobMatchAI — AI-Powered Job Matching & Resume Analyzer React 19 · Node.js · Gemini AI · Firebase · Railway	Jun 2025
- Built a full-stack recruitment platform using Google Gemini 2.0 Flash for resume analysis, ATS scoring (0–100), and skill extraction with AI-generated improvement tips. - Integrated JSearch RapidAPI for live job listings from LinkedIn, Indeed, and Glassdoor; implemented JWT + bcrypt authentication with RESTful API architecture. GitHub Link	
Python-Based Multi-Service Honeypot System Python · Sockets · Threading	Dec 2025
- Simulated SSH, FTP, HTTP, and Telnet services to capture attacker behaviour, log source IPs, and record attempted credentials for threat analysis. GitHub Link	

Certifications

- EC-Council** — Certified Ethical Hacker (CEH) *(In Progress)*
- Cisco** — Introduction to Cybersecurity
- Anthropic** — Claude 101 | Claude Code 101 | Claude Limitations & Capabilities
- MeitY** — DPDP: Digital Personal Data Protection
- TEI** — Python and Data Science Workshop at IIT Madras

Activities

- Practising CTF challenges on **TryHackMe** and **HackTheBox** to build offensive and defensive security skills.
- Completed **KUKA Robot Automation Training** at JJCET — exposure to industrial automation and robotics programming.

Education

J.J. College of Engineering and Technology, Trichy B.E. Computer Science and Engineering (Cyber Security) — Anna University CGPA: 8.2 / 10.0	Mar 2023 – May 2027
R.C. Higher Secondary School, Trichy Class XII — Tamil Nadu State Board 83.33%	2023
St. James Matriculation Higher Secondary School, Trichy Class X — Tamil Nadu State Board 75%	2021
